

Rostyslav Mankevych

Game Developer / Game Designer

About Me

Hello, my name is Rostyslav, and my passion is creating interesting and unique games. My experience and self-education have aided me in developing my programming and design skills set and allowed me to create different game mechanics. I'm focused on developing games that will satisfy everyone, like me, a company, and players.

Education

● **Mathematic Bachelor, (2020 - 2024)**
